

The background of the slide is a collage of several overlapping covers of the 'Southern Asian Wireless Communications' magazine. The covers are in grayscale and feature the title 'SOUTHERN ASIAN WIRELESS COMMUNICATIONS' at the top, followed by 'Volume 11 Number 3' and 'Q3 2018'. Below this, there is a list of topics: 'Are LEO satellites the best options for connectivity via space?', 'How wireless tech is crucial in helping keep people safe', and 'Industry view: the top sectors driving the IIoT'. At the bottom of each cover is the 'TRIPP-LITE' logo and the slogan 'We're in IT with you'. The central text is overlaid on this collage.

SOUTHERN ASIAN WIRELESS COMMUNICATIONS

MEDIA INFORMATION 2022

www.asianwirelesscomms.com

INTRODUCTION

Unlike many other business publications with too broad a remit, Southern Asian Wireless Communications offers independent editorial that is tightly focused on the technologies and business of developing wireless communications networks in the region.

Now in its 14th year, Southern Asian Wireless Communications offers a valuable reference tool for those involved in the region's wireless communications industries.

Over 7000 managers, directors, engineers and technicians within the operator, integrator, service provider, towerco, broadcaster, regulator, consultancy, distributor and public and private sector user arena, are regular readers.

Each member of this community influences, specifies or purchases wireless communications equipment, services, software, infrastructure and consultancy. As a result, advertisers can rest assured that their message will reach a targeted base of potential customers who are technology aware, business-oriented and actively seeking wireless solutions throughout Southern Asia.
